

Kaito KA123 Digital AM/FM & NOAA Weather Radio with Alert & Flashlight

Brand: Kaito
Product Code: KA123

Price: \$39.99

Description

Connected to the Emergency Alert System (EAS) through NWR (National Weather Radio) network provided by NOAA (National Oceanic and Atmospheric Association), this feature will automatically activate the radio to inform you of any hazardous weather conditions or warnings including natural, environmental and public safety while the radio is set at the "Alert" mode.

Powered by three AAA batteries, the all new Kaito KA123 weather radio comes in a very compact size, but yet is packed with a lot of functions and features. Its digital tuner picks up not only local AM/FM stations, but also all NOAA 7 channels plus real-time alert, which could turn out to be a life-saver should a disaster strikes. With its compact size, stylish design, versatile functions and reliable performance, it will be an ideal companion for emergency preparedness, backpacking, camping and other outdoor activities.
